

# STURDY ENVIRONMENTAL PROTECTION PRODUCTS

## STURDY Grit Bunker

The Sturdy Grit Bunker is ideal for use in shopping centres, car parks and areas of high pedestrian traffic.

- The Sturdy Grit Bunker has a wide opening to allow for easy filling and extraction of grit, salt or sand.
- The top of the bunker is designed to prevent the collection of snow and rainwater and ensures that grit or salt remains dry inside.
- The Sturdy Grit Bunker has a capacity of 175lt's, equivalent to 225kg's of grit.
- The Bunker comes in high visibility yellow as standard but other colours are available upon request.
- As they are manufactured from UV stabilised polyethylene plastic, the Sturdy Grit Bunkers will not rust or rot and no painting is ever required.

## STURDY Drum Dispenser

This product is not only a Drum Dispenser and a Transportation Trolley for 200lt drums, it is a secondary container that can contain any spilled liquid until it can be safely recovered or disposed of.

- The Sturdy Drum Dispenser is designed for easy transportation of 200lt drums.
- It also provides a bunded trolley & dispensing station all in one product.
- Its easy one man operation improves productivity and reduces operator strain.
- The unit comes complete with integrated, strong, secure ratchet strapping.
- Any spills can be recovered through the drain plugs at the end of the product.
- A foot step is incorporated at the back for ease of lifting.

**Length:** 1600mm **Width:** 800mm **Height:** 800mm **Code:** 160 - A **Price:**

## STURDY Fluorescent Tube Recycling Containers

Sturdy Fluorescent Tube Recycling Containers are available in 6ft or 8ft lengths and are specially designed for the collection of waste fluorescent tube bulbs.

- The lightweight lid allows for easy insertion of fluorescent tubes into the body of the container. Two large rigid rear wheels and two swivel castors in the front ensure that the product is easy to transport.
- On the 6ft version, two lockable clasps are located on the lid which prevent unauthorised access. On the 8ft version, two velcro straps are provided to keep the lid in place and also allows for easy access. The one piece, stress free body of the product is sealed to prevent the possibility of leakage.
- The 6ft container can hold up to 200 6ft (1.8m) fluorescent tube light bulbs, while the 8ft container can hold up to 140 8ft (2.44m) fluorescent tube light bulbs.
- We can customise your tube container, as we can manufacture them in a wide range of colours to suit your requirements. As an optional extra we can print your logo or business name on the side to help promote your company.

## STURDY Drums-Up Spill Tray

The Sturdy Drums-up Spill Tray is suitable for a 200lt Drum and acts as a drip tray for the drum. It is available as a static or portable unit

- The Tray has a capacity of 25lt and is ideal for storing or transporting chemicals around a premises.
- It is available as a portable tray which has a galvanised steel frame complete with castors. It is also available as a stand-alone unit.
- It is manufactured from UV stabilised polyethylene plastic which means it will not rust or fade and no painting is required.
- A spout is incorporated into the product to allow any spills to be emptied with ease once the drum is empty.

**Static Unit - Diameter:** 985mm **Height:** 280mm **Code:** 192 - A **Price:**

**Portable Unit - Diameter:** 985mm **Height:** 390mm **Code:** 193 - A **Price:**

## STURDY Drop Front Container

This container is designed to help avoid any health and safety risks associated with handling bagged or bulky waste. The Drop Front on the containers make them ideal for retail, manufacturing and clinical waste.

- The Drop Front container is available in 1100lt capacity, the most requested option for bagged waste management.
- The drop door at the front allows easy access for loading and unloading of bulky and bagged waste, thus reducing lifting requirements.
- The lid is lockable as standard and the drop down door is secured in place by bolts which can be padlocked for extra security.
- If you require a bin that has a drop door but can be lifted on the comb bar then please contact us regarding our Drop Back version.
