

STURDY Tidystore^{plus}

The New STURDY Tidystore^{plus} is an ideal storage system that can be used for many different applications within all areas of industry.

The Sturdy Tidystore^{plus} Storage Unit is a secure and lockable unit for both promotional and business use.

It is ideal for the storage and display of peat briquettes, coal, peat moss and dog & animal feed.

As products can be neatly displayed and are visible to the public, it is also ideal for use in garage forecourts and shop fronts.

As an optional extra your company name or logo can be placed on the Tidystore^{plus} to help promote your company.

The Tidystore^{plus} comes with lightweight plastic double roller shutters as standard which allow it to be opened with ease. A full length shutter is also available upon request.

The unit can be locked to keep the products secure.

The rotationally moulded UV stabilised body guarantees a strong and durable weather resistant product.

The unit is long lasting and maintenance free.

The Tidystore^{plus} comes in a variety of colours. Just ask our sales team for the options available.

Length: 2100mm **Width:** 1100mm **Height:** 1220mm **Capacity:** 2.6m³ **Code:** 479-A

STURDY Tidystore^{plus}

AVAILABLE IN A RANGE OF COLOURS

The **Tidystore^{plus}** uses a simple padlock and eye-bolt system to lock the unit, keeping the items stored within safe and secure. The plastic handles allow the lightweight shutter to be opened with ease.

The **Tidystore^{plus}** has a capacity of 2.6m³ compared to the capacity of our standard Tidystore which is 1.7m³. The increase in capacity allows more items such as briquettes, coal, dog food, kindling, etc. to be placed inside. This helps cut down on the frequency of restocking the **Tidystore^{plus}**.

As an optional extra the **Tidystore^{plus}** can be fitted with an advertising panel to help promote your business or advertise the products you are selling. The advertising panel is mounted on top of the unit and is fixed in position on the inside of the product.
