

STURDY STACK-N-STORE

INTRODUCING THE **STACK-N-STORE** FROM **STURDY**

Sturdy Stack-N-Store is the perfect solution for all your storage problems. These storage containers are suitable for all areas of industry and can be used for storing a wide range of products.

The containers are ideal for electricians, plumbers, carpenters or any type of trades person. The containers are currently being used in the laundry and equestrian industry as storage containers. The sky is the limit when it comes to the varying uses for the Stack-N-Store containers.

They are available in two sizes and can be manufactured in a variety of colours.

The Stack-N-Store containers fit neatly into domestic garages, workshops, warehouses and factories. They are unobtrusive and require little or no maintenance.

It is recommended that the containers are stacked no more than three high for easy access from the ground. They can be stacked higher but a step ladder would be required for access to the higher containers.

The Stack-N-Store containers are manufactured from UV stabilised medium density polyethylene, which can be 100% recycled at the end of its life.
