STURDY
PRODUCTS LTD

All our Mortar Tubs are tested, certified and approved to international standards which ensures the safety and compliance on your building site.
Full certification is available for each tub supplied.

Our Most Popular Mortar Tubs are Produced with UV Stabilised Medium Density Polyethylene

High Grade Steel Frames Ensure that these Tubs Are Extremely Strong and Durable

Unique Patented Sturdy “Flexi-Handles” Perfect for on-site Crane or Forklift Transportation

Stacking Lug Design Ensures Easy Separation of Stacked Tubs

Craneable

Capacity
250L

Length
1000mm

Width
700mm

Height
550mm

Product Code:
060 - A

Teleporter

Capacity
250L

Length
1000mm

Width
700mm

Height
550mm

Product Code:
261 - A

Basic

Capacity
250L

Length
1025mm

Width
710mm

Height
560mm

Product Code:
183 - A

UV Stabilised Medium Density Polyethylene

Wide Rim Designed for Forklift Transportation

Stacking Lugs Ensure Easy Separation

Versatile LiftTub

Capacity
250L

Length
1070mm

Width
762mm

Height
555mm

Product Code:
364 - A

**UV Stabilised Medium Density
Polyethylene**

**Forklift, Crane, Teleporter Friendly
Design**

**Flexible Body Allows for Easy
Cleaning**

**Rigid Handles Prevents Sticking
When Stacked**

Twin Tone

Capacity
250L

Length
1240mm

Width
920mm

Height
555mm

Product Code:
363 - A

**UV Stabilised Medium Density
Polyethylene**

**Unique Three Moulded In Legs To
Avoid Lodged Mortar**

Non-Stick Inner Surface

Stacking Lugs Ensure Easy Separation

Site Waste Segregation

The Sturdy Site Waste Segregation Trolleys are ideal for segregating waste on site. Substantial savings can be made by segregating construction waste on site.

- Both the STURDY Mini Skip and Waste Segregation Trolley are available in a range of standard colours in order to distinguish between different waste types.
- Both products are suitable for teleporter & crane lifting.
- The waste segregation trolley is fitted with 2 braked and 2 non-braked castors and has a coated steel frame. All components of the mini skip frame are fully galvanised.
- Both waste segregation products are fully and independently certified and incorporate our unique patented "Flexi" handles.

Personalisation is available on request.

| Mini Skip |
|-------------------------------|
| Width 900mm |
| Length 1000mm |
| Height 700mm |
| Product Code 331- A |

| Waste Segregation Trolley |
|-------------------------------|
| Width 1000mm |
| Length 1670mm |
| Height 985mm |
| Product Code 390- A |

Forkliftable Bulk Container

The unique design of the Sturdy Forkliftable Bulk Container makes it ideal for storing or transporting material of all types.

- Strong, durable and practical for many types of storage and transportation.
- Castors and handles are available as optional extras.
- Lightweight and easy to manoeuvre.
- Drain plugs can be fitted as an optional extra.
- Personalisation available upon request.
- Manufactured from UV stabilised polyethylene plastic.

| Technical Specifications: |
|--|
| Capacity 900L |
| Width 1200mm |
| Length 1100mm |
| Height 920mm (1200mm with castors) |
| Product Code 090- A |

Jobber

The Sturdy Jobber is manufactured from UV stabilised Polyethylene and is tough and durable. It has no sharp corners and is strong to withstand abuse.

The Jobber can be forklifted and is designed for the small builder. It fits neatly into the back of most vehicles. It can also be used to move small quantities of mortar or plaster by forklift.

| Technical Specifications: |
|--------------------------------|
| Capacity 200L |
| Width 900mm |
| Length 900mm |
| Height 380mm |
| Product Code 181 - A |

Quality Products Built To Last

We here at Sturdy Products Ltd take pride in the strength, the standard and the assembly of our products.

Ireland's leading Rotational Moulding experts are looking forward to hearing from you.
