Cargo Tray Range

Sturdy Products Out Of Gauge Cargo Trays range

The Sturdy Cargo Trays range are robust and lightweight transport trays designed for use in border security and airport Out of Gauge baggage handling systems. They are ideal for accommodating oversized or irregularly shaped baggage such as musical instruments or equipment. The Cargo Trays are available in five sizes to accommodate a wide range of baggage types and baggage handling systems.

Rotationally moulded in one piece from UV stabilised Medium Density Polyethylene, the trays are extremely strong and durable. The trays are designed with no sharp corners and a smooth interior surface for ease of use and cleaning, helping to maintain a hygienic environment. Anti-jamming stacking lugs allows for easy storage and retrieval, minimising storage requirements.

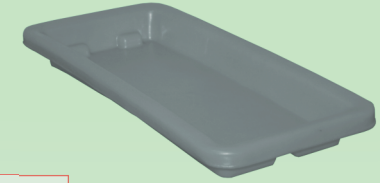

The trays are available in a range of variety of colours. Just ask our sales team for the options available.

As an optional extra your company name or logo can be silk screened onto the body of the tray to help promote your company.
