## Large Self-Watering Planter

Product Code: 1340-A

Bring charm and convenience to your garden with this sturdy, large self-watering planter—designed for both beauty and performance. Featuring a generous 10 litre water reservoir, it keeps your plants consistently hydrated with minimal effort, making it perfect for busy lifestyles or warm climates. The spacious soil capacity of approximately 44 litres provides ample room for roots to thrive, supporting healthier, more vibrant growth. Its rustic look adds timeless character to any outdoor or indoor space, blending seamlessly with both modern and traditional décor. Thoughtfully designed with easy-access drain and fill holes, maintenance is simple and mess-free. Durable, practical, and stylish—this planter is the perfect upgrade for any plant lover.

## Small Self-Watering Planter

Product Code: 1339-A

The Sturdy Small Self Watering Planter combines durability with timeless rustic charm, making it a perfect addition to both home gardens and street landscapes. Crafted from UV-resistant Medium Density Polyethylene, it's built to withstand the elements while maintaining its attractive, weathered look. Designed for convenience, it holds approximately 3 litres of soil and features a 1.78 litre water reservoir that helps keep plants consistently hydrated with minimal effort. Ideal for busy plant lovers, this planter offers a practical, low-maintenance solution without compromising on style.
